### PROJECT

#### HOSPITAL-MANAGEMENT-SYSTEM

- A comprehensive hospital management system with patient records, appointment scheduling, and medical staff management features.
- It offers features such as patient registration, appointment scheduling, and billing management. The platform aims to enhance the efficiency of hospital administration and improve patient care through digital solutions.
- WIX / React.js / Vite / TAILWIND CSS

#### PORTFOLIO WEBSITE

- A modern portfolio website showcasing my work and skills, built with React and Tailwind CSS. Features smooth animations and responsive design.
- Figma / React / Tailwind

#### WORLD WATCH NEWS SITE

- A global news aggregator with interactive maps showing news coverage and events from around the world.
- News aggregator, presenting a curated selection of global headlines spanning various topics such as politics, technology, science, and culture. The platform aims to provide users with concise summaries and links to full articles, facilitating easy access to current events from reputable sources.
- React.js / Prisma / zustand / react-leaflet

#### VEGGIEBITE - VEG RECIPES FINDER

- A RESTful API backend for a vegetarian recipe sharing platform with user authentication and recipe management.
- Node.JS / Express / MongoDB
